

Dear Hiring Manager,

I am writing to express my interest in the Graduate Engineer position at Industrus Engineering. As a final-year Mechatronics (Hons) and Medical Science student at UTS, I am eager to apply my diverse academic background and hands-on experience to your dynamic team.

My internship at Bromic Group has provided me with invaluable experiences in product development and sustainability, reinforcing my commitment to ethical practices and professional accountability. Furthermore, I have developed strong communication skills through various roles, including speaking with international suppliers.

I am particularly drawn to Industrus Engineering's innovative projects and proactive environment. My technical skills, combined with my experience in managing information and performance, prepare me to contribute effectively to your team. My involvement in team-based projects and leadership roles has honed my ability to collaborate and lead, making me a strong fit for your Graduate Program.

I am enthusiastic about the opportunity to join Industrus Engineering and contribute to your impactful projects. Thank you for considering my application. I look forward to discussing how my background aligns with your needs.

Sincerely,

Ravindra Liyanaarachchi
